Auction record at this year's Elite Auction

The average price increased by a full 47 percent at the Elite Auction in comparison with 2014. The median price increased 23 percent. For the second auction in a row there were a Trottex auction record when Coys Rain (Muscle Hill - Savvy Yankee) was sold for 1 260 000 SEK to Reijo Liljendahl.

- It is gratifying to note that the recovery of the average sales is so big. However, it's mainly the prices of stallions that have increased. The prices for mares remains at the same low level, says Sara Blomhage, Secretary General of ASVT.

The horses were in general presented in a very good condition and this year's Elite Auction was very well attended.

Second most expensive horse was the Maharajah-brother Vakell (Zola Boko - Chili Khan). The colt was called in by Stefan Hultman 720 000.
